SKILLS

Python

oops in c++

Data structures

MYSQL

LANGUAGES

Telugu
Native or Bilingual Proficiency

English
Professional Working Proficiency

Hindi
Limited Working Proficiency

HOBBIES

Cricket | Badminton

DEGREE

BACHELOR OF ENGINEERING
New horizon college of engineering

07/2019 - 05/2023,   *Banglore,Karnataka CGPA-8.18*

Courses
- Electronics and Communication engineering

PUC
Sri Chaitanya junior college

06/2017 - 05/2019,   *Proddatur ,kadapa dist/Percentage 89.8*

Course
- MPC

Matriculation
Sri Chaitanya school

06/2016 - 04/2017,   *Proddatur /Percentage 87%*

PERSONAL PROJECTS

IOT GARBAGE MONITORING SYSTEMS
- This is very innovative experiment it separates the wet and dry waste and it detects the level of bin.In this project main component is arduino uno.Each and every component is connected to arduino uno.We have used the moisture sensor to detect the wet and dry moisture level.If the moisture level is 0 the garbage goes into the dry bin if the moisture level is more than 1 the garbage goes into the wet bin.

FACE RECOGNITION FOR VISUALLY IMPAIRED
- Our aim is to create an intelligent system. we use a small device that performs similar to the human brain, called "Raspberry Pi"; It is a small device that analyzes the images and scenes with the help of the camera.Raspberry pi is the heart component in this project.In this project the rapsberry pi camera is placed on the top of the galsses and the camera is connected to the raspberry pi and the we'll get output through headphones or blutooth.This blutooth and headphones are connected to Raspberry pi.

ACHIEVEMENTS

Runnner up in table tennis open tournament.
